

About The Southern Nevada Chapter

Chartered in 1968, the Southern Nevada Chapter of the American Society of Safety Engineers (ASSE) has a diversified

membership that supports Professional Safety in Government, Business and Industry, Building Trades, Education, Healthcare, and Hospitality in Southern Nevada. The Chapter has dedicated itself to advancing the safety profession and enhancing the knowledge and capabilities of safety practitioners.

The Southern Nevada Chapter has played a key role in the development of many important national programs and standards. Society members have served on federal committees supported key safety and health legislation, and sponsored safety awareness and professional development activities.

The Chapter supports opportunities for networking with local colleagues; develop skills; and a variety of local professional development offerings. We are proud to be included with the 30,000 dedicated Safety Professionals in the American Society of Safety Engineers.

Open your eyes to the world of benefits and services the American Society of Safety Engineers provides.

PROFESSIONAL

COMMITMENT

Founded in 1911, the non-profit American Society of Safety Engineers (ASSE) is the oldest and largest professional safety organization. Based in Des Plaines, Illinois, ASSE has 30,000 occupational safety, health and environmental members who manage, supervise, research and consult on safety, health, transportation and environmental issues in all industries, government, labor and education. ASSE is a global organization that works to advance the technical, scientific, managerial and ethical knowledge and skills of occupational safety, health and environmental professionals, and is committed to protecting people, property and the environment.

ASSE provides such services as education, public affairs, government affairs, and involvement in national and international safety standards development, technical publications, and timely communications on safety advancements worldwide. Safety, health and environmental professionals help prevent workplace injuries and illnesses, create safer work and leisure environments, and develop safer products. For more information visit ASSE's website at www.asse.org.
